Personal Report in sport specialization, characterizing the coach and his development during the course:

Vintcent is a civil engineer and is also the coaching director of the South African Judo Federation since 2004. He has been involved in coaching for more than 20 years. For 10 years he was the technical director of Southern Free State Judo Committee. He works in Kurash where he was formerly the director for 4 years.

Vintcent has an excellent knowledge and has huge information in the judo literature. He had an excellent behavior, always showed the maximum of interest and paid attention to all aspects in judo specialization. He had an outstanding problem-solving ability. He had a very thoughtful temper and mental constitution to work. Vintcent was very diligent, was always punctual and was conscious in all his work. He was the best student in the specialization in the last decade definitely.

Vintcent was mainly interested in teaching coaches. He showed a great interest in judo belt exams, especially in master's (DAN) ranking. His activities in the compulsory and optional specialization programs were exemplary. His personal contact making was also excellent to everybody.

Vintcent has proved his maximum knowledge and the excellent ability to become a good leader in judo back in his country. We wish him good luck in his career!
